

Working with Children with Severe Behavioral Problems

Presented by Gary Benton

Mr. Benton's trainings are well-known for being fast-paced and humorous, while he discusses factors that lead children to act out. His goals include: improving adult response to acting-out children; minimizing acting-out behaviors in children in care; dealing with burn-out; ADD/ADHD; and improving teamwork among all the adults in the child's life. He explains how brain development and children's psychological needs impact their behaviors.

This workshop will be held:
