**"Why would you want to adopt if you can have kids of your own?"**

**"We are motivated to adopt because we believe we have parenting skills and other gifts that can make a dramatic difference for a child in need of a family. We have a strong belief that children should grow up in permanent, loving families, and feel a moral commitment to help with the problem of orphaned children in a personal way. Adoption will provide all of our family members with an experience of growth and understanding as new relationships grow."**

*Please pray for more people to adopt the many children who need a forever family.*
